

INTELLIGENT MATERIALS FOR THE FUTURE OF TEXTILE

BY FULGAR®

#THEFUTUREISFULGAR

FULGAR IS THE INTERNATIONAL LEADER
IN THE MAN-MADE FIBRE MARKET WITH PRODUCTION
AND DISTRIBUTION OF POLYAMIDE 6.6 AND COVERED
ELASTOMERS IN THE TEXTILE AND TECHNICAL SECTOR.

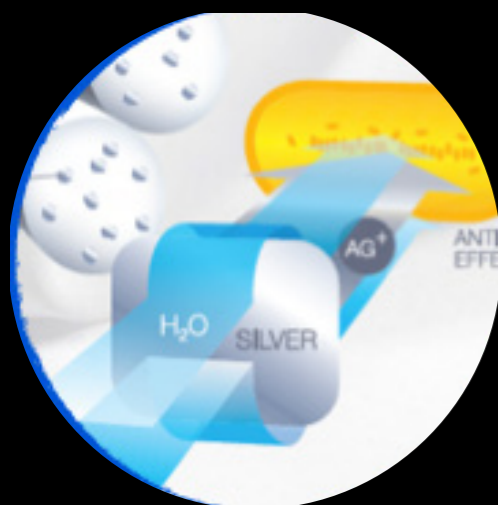

WHAT IS Q-SKIN?

Q-Skin by Fulgar is the fibre Nylon 6.6 which incorporates in its core an odor control ingredient, that reduces the development of unpleasant odors.

KEEP FRESH
YOUR SKIN

HOW Q-SKIN WORKS?

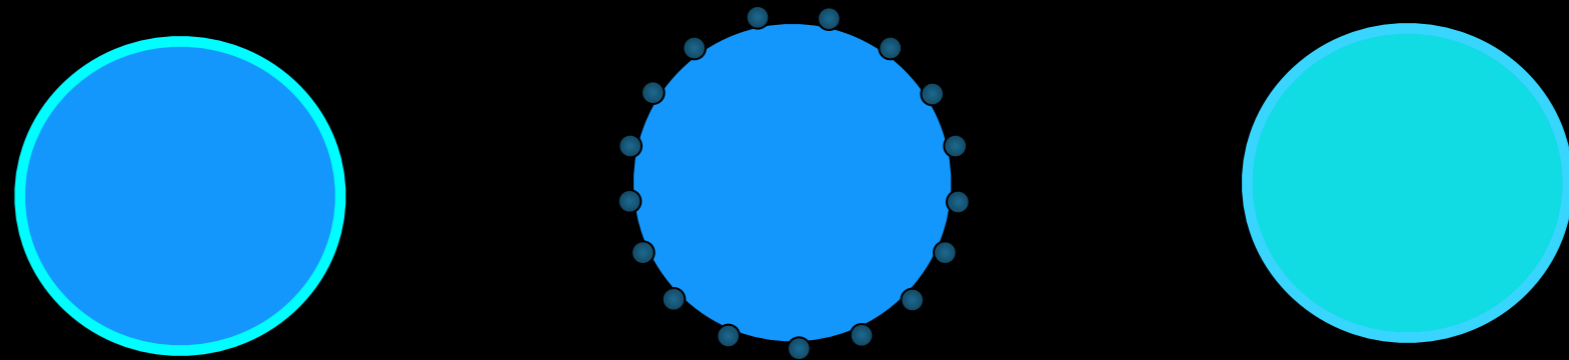

The bacteria have negative charge (-) while Silver Ions Positive (+) this mechanism allows the Silver Ions to reduce the excess bacterial flora.

The odor control activity of Q - SKIN® fiber is focused only on the fabric surface.
ODOR CONTROL

WHY Q-SKIN IS DIFFERENT?

Q-SKIN fiber has a bacteriostatic effect tested according to DIN ISO 20743 : 10-2007 and tested up to 100 washes . Other technologies in the textile market have limited effectiveness with a low levels of performance .

PERFORMANCE	DECREASE AFTER FEW WASHING	DECREASE AFTER FEW WASHING	UP TO 100 WASHING
CHEMICAL MIGRATION	YES	YES	NO
LEVEL OF COMFORT	LOW COMFORT	COMFORT	COMFORT
COLOR	LIMITATION	NO LIMITATION	NO LIMITATION

Bacteriostatic effectiveness tested by
MIS PLUS of Zurich according to

DIN ISO 20743: 10-2007

Long-Lasting Bacteriostatic
action tested by MIS PLUS of
Zuich according to

JIS L 1902/02 standard.

CERTIFICATIONS

Q-SKIN complies with more stringent International Standard.

Q-SKIN fiber ingredient IS CERTIFIED ACCORDING TO:

- EPA (Environmental protection agency)
- Direttiva Europea 528/2012/EU
- EU biocide product regulation
- Oekotex std 100 class I

Q-SKIN fiber is CERTIFIED ACCORDING TO:

- Oekotex std 100 class I
- REACH
- MSDS
